Encourage Your Local University To Become An IAEP School!

The Internal Auditing Education Partnership (IAEP) program was developed to respond to the growing interest in internal audit education at institutions of higher learning. The program also addresses a general need of practitioners interested in hiring students who possess a well-rounded skill set for conducting internal auditing. Being a member of the IAEP program requires a commitment from the school, the local IIA chapter and the global IIA Academic Relations Department. The application for the program requires that a school meet the qualifications outlined in the Internal Auditing Education Partnership Program Requirements & Operating Framework and complete a five-year business plan that discusses all aspects of the school's internal audit program as well as the faculty's commitment. Applications are accepted twice a year.
