EVOLVING AND TRANSFORMING EHS AUDITING THROUGH INNOVATION

Sept. 16–17, 2019 / Washington, DC
The Exchange program creates a snapshot of the future of EHS, addressing next-generation enforcement, sustainability reporting, changes in regulatory agencies, and more. EHS experts and former regulators will share their insights on key issues impacting EHS auditors and their organizations.

From legal issues facing EHS to legalized marijuana systems, and from developing assessment programs to examining regulatory rhetoric, EHS auditing is one of the most fast-paced and fascinating audit fields.

WHY SHOULD I ATTEND?

- Understand the differences between the rhetoric and reality of EHS regulations.
- Gain takeaways on best practices for auditing sustainability.
- Enhance knowledge of EHS legal processes and legalized substances.
- Strengthen future-focused skills with EHS analytics and metrics.
- Explore the auditing of internal controls over land-applied biosolids.
- Discover how to develop and implement partnership assessment programs.
- Earn up to 15 CPE credits.
